CASE MAKER

The High-Speed Case Making Machine sets the global standard for flexibility and reliability in case-making production. Its unique and continuously optimized design allows the machine to produce book cases, files, and board-game components automatically at speeds of up to 60 cycles per minute.

Parameter	Specification
Fastest Speed	60 pcs/min
Board Thickness	1 – 4 mm
Spine Width	6 – 80 mm
Thickness of Hard Middle Meridian	1 – 4 mm
Thickness of Flexible Spine	0.3 – 0.5 mm
Thickness of Cover Material	0.1 – 0.3 mm
Compressed Air Requirement	650 L/min @ 6 bar
Max Case Size	680 × 380 mm
Min Case Size	130 × 185 mm
Power	15 kW
