SECTION SEWING

Automatic Sewing Machines are compact, high-performance solutions designed for professional bookbinding. With a space-saving layout where the loading and unloading stations are just one meter apart, both machines can be operated easily by a single person. Sewing machines come in two speed options 180 cycles/min and 220 cycles/min. These machines have a state of art mechanical, electrical, and pneumatic system with carbon-fiber parts for precise control of feeding, sewing, and thread cutting.
