STACKERS

Vertical Press Stacker and Bundling Delivery

Vertical Press Stacker and Bundling Delivery owns a high storage capacity for folded products and is therefore par ticularly suitable for the processing of medium to large runs. The integrated pressing unit exhausts air to improve folding quality, and the delivery combines with the bundling device. It can set the signature stack number, wrap the stack neatly, then push to the bundling station. The Vertical Stacker and Bundling Delivery is fitting for industrial signature production and is perfect for the next process production.

Parameter	Specification
Max Sheet Size	480 × 360 mm
Min Sheet Size	150 × 110 mm
Power Consumption	2.3 kW
Dimensions	1.7 × 1 m
Weight	400 kg
Bundling Pressure	3000 N
